***"Must" reading for industry newcomers  
and high school or college students  
considering career options!***

# Rewarding Careers in the Nursery Industry

*By William Flemer III*

This is a new, highly interesting basic introduction to the nursery industry. Because it presumes no knowledge of horticulture or business, this easy-to-read book is ideal for all who seek an overview of the varied opportunities the industry has to offer.

Flemer begins by presenting basic information about the industry. He describes what working in the industry is like and where it can lead. The author also stresses the value of personal contacts, associations and trade journals in building professionalism.

In this book Flemer provides a host of practical information on starting a business, information of value to anyone contemplating eventual ownership of their own company.

This career guide, based on a series of articles Flemer wrote for *American Nurseryman* magazine, begins with four introductory chapters that explain the history and scope of the industry, how to prepare for a career in horticulture, broad career paths, and an overview of management.

The remainder of the text focuses on the various career paths within the industry, from growing, landscaping and retailing to association work. Each of 14 specialty areas is described in its own chapter. Topics covered in each chapter include the general type of work, education and skills needed, along with opportunities for advancement.

## Rewarding Careers in the Nursery Industry

*By William Flemer III*

In addition to being an outstanding career guide, this book will serve as an excellent study guide for training new nursery staff members. It is also an ideal reference to donate to a local school, library, or high school guidance counselor.

Copyright 1990. Approximately 160 pages, including a glossary, a list of horticulture schools and the names and addresses of professional associations and major trade magazines. 6" x 9", soft cover.

Item 569 .....\$19.95

# It's No COINCIDENCE

That the calendar system doesn't work . . .

"You weren't supposed to arrive  
for 2 more weeks!"

"I heard lunch was being served  
early this year."

***Insect life cycles COINCIDE with their food sources***

## COINCIDE

The Orton System of Pest Management

**Shows how to accurately  
time pesticide application**

**Item 304 \$18.95**

**To Order Call 1-800-621-5727**

**In IL 1-312-782-5505**

100 insect pest life cycles are linked to the seasonal change of the plants, backed by 20+ years of field observation. By using the indicator plants, you can target pesticide applications to attack a specific insect at its most vulnerable stage. Since the cycles of insects must be synchronized with their food source, the Orton system times the application better than a calendar system which could vary from one location to another. The author's observations show, for example, that the emergence of the bronze birch borer has coincided with the completion of bloom of bridal wreath spirea regardless of location. Orton updates age-old maxims such as "It's time to plant corn when the oak leaves are the size of a mouse's ear," to "To control crabgrass apply pre-emergent herbicide when the Forsythia blooms." Since you can reduce spraying you cut pesticide and labor costs, still kill bugs effectively and minimize air pollution. Reviews aphids, mites, borers, scales, spruce gall adelgid, webworm, juniper tip midge, gypsy moth, leaf miner, black vine weevil and more. The index is cross referenced by common and botanical names. © 1989. 190 pp. Hardiness map. Paperback.

# NURSERY JAWS II

THE MOST VERSATILE LOADER ATTACHMENT YOU WILL OWN!

No need to leave your skidloader to pick up a 20" B & B tree and then transport a 50" B & B tree or two 40" B & B trees.

Use the **NURSERY JAWS** loader attachment to place landscape boulders—remove from mulch, load, unload, and plant B & B stock and large container stock.

Treat your employees and your nursery stock with care. No more backaches or skinned trunks. The **NURSERY JAWS** now come equipped with padded tree guards and, upon request, 6" pads for wet or sandy soil.

The **NURSERY JAWS** are proven. Ask for references and our VHS video to see for yourself.

**NURSERY JAWS**

Very double, fluffy, peach-pink flowers in profusion,  
low and compact, BG Liners 60¢ \$580.00 per 1000

**Spitfire**  
A new upright striking red, very much in demand. BG.  
Liners 60¢ \$580.00 per 1000

#### Order in multiples of 100

##### EUONYMUS

**EUONYMUS ALATUS COMPACTUS**  
Heavily rooted cuttings, rooted in soil. BG, 50¢; \$440.00 per 1000

##### HOLLY

##### ORIENTAL HOLLIES

##### READY FOR FIELD PLANTING

All 2-year, BG, liners are perfect for planting in the field. Most will make a salable plant in a gallon can in one season. All are well fed, dark green, and the very picture of health and vigor.

**Ilex crenata "Green Luster"**  
A superior plant very compact and hardy, 2 yr. BG  
Liners, 50¢ \$440.00 per 1000

**Ilex crenata Hetzi**  
2 yr., BG liners, kept out back 6 to 7 ins., beginning to  
branch well, 50¢ \$440.00 per 1000

**Ilex crenata Compacta**  
A Bennett hybrid, very compact and very dark green.  
2 yr., BG, 50¢ \$440.00 per 1000

**Ilex opaca "Greenleaf"**  
2 yr., BG, 55¢ \$475.00 per 1000

**Ilex c. "Gloria"**  
A nice compact hardy plant—perhaps the hardest  
crenata. 2 yr., BG, 50¢ \$440.00 per 1000

**Ilex Foster's Hybrid No. 2** A fast clean upright grower  
easily shaped (with a lot of shearing) into a compact  
pyramid. 2 yr. BG liners, kept cut back 6 to 8 ins.,  
beginning to branch well, 55¢ \$475.00 per 1000

**Ilex Nellie R. Stevens (Female)** Large, rich dark-green  
leaves, red berries nearly half an inch in diameter. A  
very vigorous fast, upright grower. 2 yr. BG liners, kept  
cut back to 6-7 ins., 55¢ \$475.00 per 1000

CARL BAUER

FAX: (615) 469-7318

**MALUS**  
Malus Indian Magic BG \$1.00 \$900.00 per 1000

#### JAPANESE FLOWERING CHERRIES

Rooted and grown in outside beds, shipped as dormant  
bare root plants. These liners will pay off quick and  
produce 6-8 foot trees in 2 years.

**Prunus serrulata "Kwanan"**  
BG. 15-24 ins. \$120.00 per 1000

	100	300
2-3'B.R.	\$3.05	\$2.80
3-4'B.R.	\$3.55	\$3.15
4-5'B.R.	\$4.65	\$4.20

**Prunus X. Yodensis "Yoshino" Cherry**

2-3'B.R.	\$3.05	\$2.80
3-4'B.R.	\$3.55	\$3.15
4-5'B.R.	\$4.65	\$4.20

**Prunus 'Schikanensis' (Schip Laurel)**  
BG, 60¢, \$550.00 per 1000

**Prunus Newport**

Purple leaf plum on its own roots—much better than on  
peach. 6-12 ins., 75¢; 12-18 ins., 95¢; 18-24 ins., \$1.10

#### TAXUS

1 yr. BG 47¢ \$390.00 per 1000
